

AIR PURIFIER
BY NOVOFLOW

DATA SHEET

NF-1306

CO ₂ -measuring device NF-1306	
description	technical data
functions	4 in 1: infrared (NIDR) + alarm function + temperature display + humidity display, additional switch for 24-hour real-time monitoring, battery indicator
display	large LED screen
temperature unit	selectable between Celsius and Fahrenheit
detection range CO ₂	400 – 5000 ppm
product size	27 x 9 x 3,5 cm
mounting method	wall mounting possible
material	ABS
chip	Arterytle
transmitter module	HEIMANN sensor from germany
power supply	rechargeable Li-battery 2000 mAh (included)
scope of delivery	main unit, manual, USB charging cable (3 m)
